

MEDLIST PRIVACY POLICY

Buglecall ITC

Buglecall ITC would like you to know that we take your privacy very seriously. We do not collect or share personal information that is not required to make our applications useful.

This application, MedList, does not share information with any person or device.

Neither Buglecall ITC nor any third party uses MedList to retrieve any data from your device.

MedList stores your information in Android protected internal storage, which may be automatically backed up by Android but is hidden from and unavailable to any other application or user on your device.

MedList may, in the future, provide the capability to print reports, send e-mail, or issue text messages using your information at your request.

MedList may, in the future, provide the capability of exporting or importing machine formatted files, at your request, for purposes of integration with other systems.

Deleting Your Data

To delete the MedList Data on your device, uninstall MedList. If you have been using cloud synchronization, delete any of *Medlist.txt*, *Medlist2.txt*, or *Medlist3.txt* that you find in your Google Drive.
